July 2020

EDUCATION

University of Washington

BDes Industrial Design
Class of 2019

EXPERIENCE

WornWear Patagonia | Boulder, Colorado

WornWear Retail Team Leader

November 2019 - February 2020

Member of the leadership team for Patagonias experimental pre-owned outdoor clothing pop-up store. Responsibilities focused on development and oversight of a complex in-store and contract based clothing repair system, daily operations, and event planning.

The RepairCycle | Seattle, Washington

Co-Founder

April 2019 - Present

Our relationship with clothing is out of balance. The textile industry is one of the largest waste producers and polluters in the world. We are designing to catalize change in our community. Clothing mending and education from a bike trailer. Funded by UW sustainability fund, Mactez Stipend, and other generous organizations.

Industrial Alchemy | North Bend, Washington

Web-developer + Industrial Design Intern

April 2019 - October 2019

Design, development and implementation of a new Industrial Alchemy website. This ongoing internship involves hands-on soft/hard good prototyping and manufacturer asset development.

Northeastern University | Seattle, Washington

Industrial Design Consultant

May 25th - June 4th 2019

Consultant for two week workshop in which students at Northeastern University developed product pitches for Microsoft. I guided students in their ideation through group exercises through final MPV prototype development.
